Part of the National Archives and Records Administration, the Harry S. Truman Library and Museum serves as the presidential archives for America's 33rd president.

This historical treasure trove includes approximately 30,000 artifacts, but at any given time, only 1 or 2 percent of the collection is on display. Now, White Glove Wednesdays opens the vaults to share select WWII-related items. Learn about some of the rare items housed at the presidential library, as well as its journey to the Truman collection.

Featured artifacts to be announced.
